CROWAN PRIMARY SCHOOL **Accessibility Plan 2026-2027**

Purpose of Plan

The purpose of this plan is to show how our Crowan Primary School intends, over time, to increase the accessibility of our school. We will continue to improve all aspects of the physical environment of the school site, the curriculum and written information so that all pupils with a disability can take full advantage of the education and associated opportunities provided by Crowan Primary School.

Definition:

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

Key Objective:

To reduce and eliminate barriers for access to the curriculum and to allow full participation in the school community for pupils, and prospective pupils, with a disability.

Aims:

Increasing access for disabled pupils to the school curriculum:

- Our school curriculum is designed in an inclusive manner whereby all pupils can access the learning at their own level.
 - All school visits are planned with individual needs in mind and support is put in place to ensure all pupils are able to access •
- Where challenges are identified, support from relevant agencies are sought in order to adapt the curriculum or premises as required.

Improving access to the physical environment of the school:

- Support from external agencies and the Aspire premises team support to ensure the physical environment matches the needs of the pupils, where possible.

Improving the delivery of written information to disabled pupils

- Support from relevant agencies will advise as to the most appropriate methods to support our pupils, on a case by case basis.
- Letters for parents are available online and also emailed out to them directly. Paper copies are available on request. Social media is used to communicate key information also. If we become aware that parents may not be accessing the information readily, verbal communication is used effectively.

Financial Planning and control

The Head of School review the financial implications of the accessibility plan as part of the normal budget review process.

The above aims will be delivered within a reasonable timeframe, and in ways which are determined after considering the pupil's disabilities and the views of the parents/carers and pupil. In the preparation of an accessibility strategy, the LA must have regard to the need to allocate adequate resources in the implementation of the strategy.

The Hub Council also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that persons with disabilities are provided with equal opportunities.
- Provide appropriate support and provision for employees with disabilities to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.

The plan will be resourced, implemented, reviewed and revised regularly in consultation with:

- The parents/carers of pupils
- The Head of School and other relevant members of staff
- Hub Councillors
- External Partners.

This plan is reviewed annually to consider the changing needs of the schools and its pupils.

Miss T Harris (Head of School/SENDCo)

Principles

Compliance with the Equality Act is consistent with our setting's aims and equal opportunities policy and SEN information report. Our staff recognise their duty under the Equality Act:

- Not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services
- Not to treat pupils with disabilities less favourably
- To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage
- To publish an accessibility plan

In performing their duties Hub Councillors have regard to the Equality Act 2010 and our setting:

- recognises and values the young person's knowledge/parents' knowledge of their child's disability
- recognises the effect their disability has on his/her ability to carry out activities,
- respects the parents' and child's right to confidentiality

The setting provides all pupils with a broad and balanced curriculum that is differentiated, personalised and age appropriate.

Increasing Access for disabled pupils to the school curriculum

This includes teaching and learning and the wider curriculum of the school such as participation in after school clubs, leisure and cultural activities or school visits.

- All children have access to a personalised curriculum wherever required: staff are trained to meet a wide range of needs and have experience of adapting planning and resources according to need.
- Children with disabilities have access to all after school clubs and other extra-curricular learning opportunities, in consultation with parents.
- Flexible arrangements are put into place where possible to enable children with disabilities to attend educational visits and school camps.
